PORTFOLIO

DEVESH KUMAR

SKILLS

- **Languages** – HTML, CSS, JavaScript
- **Framework/Library** – React.JS, TailWind CSS, SASS/SCSS, Swiper.JS
- **Tools** – VS Code, Git, GitHub, NPM, LINUX CLI, Codepen

PROJECTS

Education Website

- It is a dummy Education Website made with HTML, CSS and JS.
- Used Swiper.JS for pagination of the page and use of formspree.io for spam free contact.
- In this project I learned to improve the functionality of the Website using pagination and formspree.io.
- Website is live here.

COLOR

- This project focuses on styling using HTML, CSS and JavaScript.
- The key features of this Website are gradient button, texts and transition effects. This website is fully responsive with a hamburger button which is made with pure CSS.
- Website is live here.

Frontend Mentor Challenges

- I practice my frontend skills from Frontend Mentor.
- Checkout my solved challenges here.

EDUCATION

B.A Programme, Delhi University — *Degree*

IT, Integrated Institute Of Technology — *Diploma*

COMMUNITY ACTIVITIES

- Member of **EDDIE HUB** open source community.
  - Here I contribute in open-source projects and taken guidance from folks in the community.
- Member of **React.JS** community and many more on **Showwcase**.
  - Here I share my learnings and projects.
